Dear hiring Manager,

I am writing to express my interest in the software developer position at [Company]. As an experienced software developer, I have the education, skills, and expertise necessary to excel in this role.

I have two bachelor's degrees in computer science and a master's degree in computer engineering with a thesis from Yildiz Technical University.

With more than [7] years of experience in the industry, I am still working in software development and am well-versed in various programming languages, including C#, Python and Java in POS and Kotlin, also I worked as a C/C++ developer in card personalization using Matica emboss printers' libraries.

Additionally, I have experience working with various frameworks such as. Net7, Net6, .Net Core, .Net Framework, .Net Entity Framework Core, NHibernate, Django and Angular, Docker and IBMMQ.

Furthermore, lastly, I have about 4 years' experience in both card personalization and payment systems, POS app developer along with EMV technologies using java/Kotlin and C/C++ in card personalization. Also, I am working on POS integration using API between POS CMS management applications. Additionally, I developed a robot using AI tools like Generative AI, LLMs, OCR and image processing even though I completed my master thesis¹ a topic from image processing.

Sincerely,

Hafiz Ozgur
